Leadec Receives Supplier Award from Toyota: Recognized for Excellent Production Services

Stuttgart/Germany, Cincinnati/USA, 06/26/2024 – Leadec, a supplier of production services, was recognized with an Excellent award from Toyota Motor North America, Inc. (TMNA) at its Annual Supplier Business Meeting Dinner and Award Ceremony (ABM) on June 3rd, held at the Resort at St. John in Plymouth, MI.

“We are delighted to receive this award for our excellent production services. Many thanks to our 240-strong team at the five Toyota sites, this is recognition of your daily commitment and technical expertise. Leadec has more than 25 years of partnership with Toyota in the Americas. We help them focus on their core competencies by providing services such as Production Equipment Maintenance, Facilities Maintenance, Conveyor Installation and Integration, Technical Cleaning or Total Filtration Management,” said Don Kennon, Managing Director Leadec North America.

Each year, TMNA recognizes suppliers who exceeded the company’s expectations in several categories.

“Toyota collaborates with each of our supplier partners in order to build vehicles with the high safety, quality and reliability standards to meet and exceed our customer’s expectation,” said Robert Young, Group Vice President, TMNA R&D Purchasing Supplier Development.

“We are pleased to recognize those in our supply base who exceed our high-performance targets. We thank them and their team members for their tremendous collaboration, partnership and commitment to continuous improvement.”

About Leadec

Leadec is the leading global service specialist for factories across their entire life cycle and related infrastructure. The company, which is headquartered in Stuttgart, generated sales of EUR 1.24 billion and employed around 23,000 people worldwide in 2023. Leadec is based at more than 350 sites, often directly at the customers' plants and facilities, supporting them along the entire production supply chain with more than 60 years of experience.

Leadec's global services comprise: Engineer (Production Planning & Optimization, Automation and Production IT), Install (Electrical Installation, Mechanical Installation and Relocation), Maintain (Production Equipment Maintenance and Technical Cleaning), Support (Technical Facility Management, Infrastructural Facility Management and Logistics) as well as other local services. The digital business platform Leadec.os offers an end-to-end solution which digitizes all service processes across systems.
